About Nonkosi

Nonkosi Koranteng, a highly accomplished legal practitioner and consultant boasting over ten years of experience in litigation, advisory and consulting. Her cross- jurisdiction academic and professional credentials have equipped her with a robust global perspective and appreciation of global best practices, elevating her into a trusted authority for international and business engagements. Having worked in financial services, healthcare, oil and gas projects, and adjacent sectors, Nonkosi possesses a well-rounded understanding of both private and public sector environments.

Her expertise in Oil and Gas Law / Energy Law renders her an invaluable asset to governments and international corporations. Nonkosi's comprehensive advice to clients is founded on her strong grasp of both South African and international law regulatory regimes.

Nonkosi legal expertise includes drafting, reviewing and negotiation of various commercial contracts and rendering regulatory advice on the entire energy value chain. Nonkosi has skill in the supply of electricity and natural gas as network related industries, as well as basic regulatory concepts underlying the supply of energy sources to end consumers. Nonkosi has advised international clients on Energy Markets and its regulations.

Her clients include International Companies in the Energy Development Projects, State-Owned Companies, Renewable Energy Companies, and Corporate Entities in the Mining Industry.
